

AFIMAC
Stand Ready.

What is Day 1 Ready?

AFIMAC's standard for deploying **skilled, vetted** workers **matched** to the workforce gap they're filling.

1 Skilled

Every worker has the training and experience to match the job you need done.

2 Vetted

Every person who arrives onsite is vetted from a network of 20,000+ screened and insured workers.

3 Matched

When your list of candidates is built, we find the ones that match the skills you need and the requirements of your site.

4 Ready

The result is a team ready to contribute from day one.

Your team can typically deploy in 72 hours or less.
